EXPERT SAYS SWOPE DIED OF POISONING

Cyanide of Potassium Might Have Produced Death Described.

Kansas City, Mo., April 30.—Dr. Ludwig Hecton, one of the experts who examined the organs of Col. Swope, took the stand in the Hyde murder trial today. Answering the hypothetical question, intended to elicit the probable cause of the death of Col. Swope, Dr. Hecton replied:

"In my opinion the symptoms described resulted from a convulsive and a paralyzing poison being administered. 'It is,' he replied.

POLICE COMMISSIONER SAYS CONSPIRATORS DOWNED HIM

Is Indicted by Grand Jury for Raising Gamblers, Being Charged With Grand Larceny—Resigns.

San Francisco, Cal., April 30.—Harry P. Plannery, president of the San Francisco police commission, who was indicted yesterday by the grand jury for grand larceny, in connection with a recent raid on a fake poolroom in San Francisco, resigned his office early this morning.

His resignation was promptly accepted by Mayor McCall. Plannery sent a letter with his resignation, saying he is a victim of a conspiracy.

MAY TERMS OF COURT WILL OPEN ON MONDAY

Monday, May terms of the district and county courts will be opened. Both district courts will devote the first week to the trial of civil matters while in the county court criminal cases will be tried.

The first case in the latter court will be that of Noel Morgan, the 14 year old school boy charged with the murder of Lawrence Wimer on Oct. 16, 1909. The killing occurred on the Oregon street side of the plaza just as president Wm. H. Taft was entering the St. Regis hotel for breakfast.

ARRESTED ON INDICTMENT RETURNED BY GRAND JURY

John Walthall, an El Paso and Las Cruces real estate dealer, was arrested Friday evening on a warrant charging him with disposing of mortgaged property following an indictment on this charge by the grand jury.

The papers in the case allege that Walthall sold six horses, a buggy, three saddles, a set of single harness, lap robes, blankets and bridles to H. J. Collins of El Paso, while a mortgage was held against the property by a Las Cruces, N. M., bank.

HASKELL TOWN LOT FRAUD CASE MAY 4

Tulsa, Okla., April 30.—The trial of the Haskell town lot cases, involving governor Charles N. Haskell, of Oklahoma, and five business men of Muskogee, has been set for May 4 in federal court here.

The government charges the defendants with having secured dummies to register in drawings for town lots in Muskogee and defrauding the Creek Indians.

Judge Marshall, of Salt Lake, will preside.

JURY IN BELL CASE FAILS TO REACH AGREEMENT

In Los Angeles, the jury considering the case of Frank M. Bell, of El Paso, on trial on a charge of perjury, failed to agree, it being said that the jury stood 11 for acquittal. The charge arose out of Bell's swearing to a complaint in 1908, charging A. R. Sanger and O. P. Wideman with assaulting him with intent to murder him, in the Hollenbeck hotel in Los Angeles.

TAFI IN BUFFALO.

Buffalo, N. Y., April 30.—President Taft arrived here at 7:35 this morning. He was escorted to the residence of Ansel Wilcox, whose guest he will be while in Buffalo.

BALLINGER WINS IN FIGHT OVER PAPERS

Committee Refuses to Allow Opposition to Have Documents.

Washington, D. C., April 30.—The Ballinger-Pinchot committee today denied attorney Brandeis's request for the original draft of attorney general Wickersham's summary of the Glavis charges and other papers bearing on it.

Before Ballinger resumed the stand, the committee gave Brandeis 15 minutes to speak on his request for information on the attorney general's summary.

Verrees was given 15 minutes to reply to Brandeis and said the information was most important to determine whether steps had been taken after the dismissal of Glavis to make appear proper that which had not been right.

Verrees said it is no longer a question of Ballinger but is directed at persons connected with the president, prompted by resentment against Garfield and Pinchot.

Request Refused.
The committee then refused the request but if subordinates of Ballinger's office have any information as to the preparation of the summary, Glavis is to have it.

Ballinger was called to the stand just before adjournment for lunch.

Referring to the time when he became secretary of the interior, Ballinger said he had dissolved all his bridges behind him, dissolved his law firm and severed all connections with corporations.

Ballinger Did Not Change Mind.
Mr. Verrees asked Mr. Ballinger to explain whether, as charged by Glavis, he had "changed his mind over night" about asking attorney general Wickersham for an opinion as to the proper construction of the law of May 8, after he had promised to do so at a conference with Glavis, commissioner Bennett and chief of field division Schwartz.

Glavis feared assistant secretary Pierce, to whom the secretary had referred the matter for an opinion, might so construe the law as to validate the Cunningham claims.

Mr. Ballinger said he had not promised to ask the attorney general for an opinion, but did so subsequently. He said he spoke to Mr. Wickersham after a cabinet meeting and that the latter told him Glavis already had appealed to him for an opinion on the ground that it was necessary for his (Ballinger) protection as "it would place me in a somewhat delicate position to require my department to pass on it."

WHY PARKER HAS GONE TO NEW YORK

Is to Become a Member of the Board Investigating That Port.

Judge Burton Parker, special agent of the treasury department at El Paso, is to become a member of the board of investigation which is at work in New York examining into the affairs of that port.

A partial report of the examination board has already been made to Secretary McLaughlin and it is understood that Judge Parker has been placed on the board to prevent any friction which might arise as a result of internal differences on the board.

The ordering of Judge Parker to New York after a part of the investigation had been completed is indicative of an interesting state of affairs in the port and another sensation equal to the sugar fraud and smuggling cases is expected when the report of the board is made public.

Judge Parker did not know the reason for his telegraphic order to go to Washington, where he is here, but the New York Herald printed on story under its Washington date line giving the real reason for the judge's orders to report at Washington.

Special agent F. E. Johnson, of Los Angeles, and J. J. Ayers, of the special agent's office in El Paso, are attending to the business of the California, Arizona and El Paso offices during the absence of special agent Judge Burton Parker in New York.

Judge T. S. Maxey left for San Antonio Friday evening after closing up the April term of the United States court.

Saturday was pay day in the customs service.

OIL THAT WOULD BURN IS TAKEN FROM CAMP CITY WELL

A pint of crude oil that would burn was taken from the well at Camp City, N. M., Saturday morning, according to telephone reports today. M. A. Boyd, who conducts a store at Camp City and a stockholder in the company, made the statement to The Herald over the phone.

The oil collected after the suspension of drilling operations Friday night, as the work was not resumed until Saturday morning.

The sand which interfered with the drilling has been washed out to a depth of 1120 feet, leaving but 150 feet to go before reaching the bottom of the well.

Several attempts have been made to pull the drill stem and bit, which became sand locked a month ago, but so far without success.

Another attempt will be made late Saturday afternoon.

The inch and one quarter pipe, on the end of which is a nozzle, and through which

water has been forced under heavy pressure to wash out the sand, will be shifted to the opposite side of the hole Saturday afternoon, as it is thought more progress can be made.

With the near completion of the washing out of the sand, Camp City residents who have staked out all land near the well, are collected and watching the work. Drilling operations will not

be stopped again until the drill stem is released, after which drilling operations will be commenced immediately.

The engine and boiler have been put in proper condition and no more accidents are expected.

The majority of the prospectors who visited Camp City upon the announcement that oil had been discovered, have left.
